Re. Bajaj Fibre Guard” 100% virgin polypropylene fibrillated fibre used in white topping work in our various projects. – Performance Certificate.

We hereby certify that we have used “Bajaj Fibre Guard” 100% virgin polypropylene fibrillated fibre having length 20mm in our ongoing white topping work in Ahmedabad.

Our observation after using Bajaj Fibre Guard are as under:

1. The mix is cohesive.
2. Fibres are mixed homogeneously in the concrete.
3. No Balling/ Segregation is observed.
4. Proper opening of fibrillation is observed.
5. Reduction of plastic shrinkage cracks is reported above 95%.
6. Fibre reinforce concrete helped continuous stretches of white topping even in day time.

Sincerely,
For **Devkali Infra Pvt Ltd.**
