RE: - Bajaj Fibre guard Fibrillated Polypropylene Fibres used in Canal work for
Project:- MODERNISATION OF ARBC FROM CH: 2.00KM TO 5.0 KM including structure (selected reaches) under Upper Krishna Project Stage-I & II. **[Indent-23069]**

We hereby certify that we have used Bajaj Fibre guard Fibres having 20 mm Length in our ongoing Canal work Project. On an average 910 gms of Fibres used per Cubic Meter of Canal works.

Our Observations after using Bajaj Fibre guard are as under:

1. The Mix is Cohesive.
2. Fibres are mixed homogeneously in the concrete.
3. No Balling / Segregation are observed.
4. Proper Opening of Fibrils is observed.
5. Reduction of Plastic Shrinkage cracks is reported above **98%**.
6. Fibre reduced voids in concrete.
